Dachshund Pattern Printing Tips

Print pages on standard paper.

Make sure "Auto Rotate and Center" is checked and that "Scaling" is NOT checked. If you have a newer version of Adobe Reader, your options might look like "Fit to Size" or "Actual Size." If so, be sure to choose "Actual Size."

To make sure your pattern is printing at the right size, measure the 1" x 1" test square.

To connect the pages, trim each sheet along the gray borderline (do NOT cut off the gray border) and match the letters in the corners of the pages.

Tape the pages together.

Once the pattern is printed and taped, cut along the black lines.

Tip: Fold fabric, then place and cut pattern pieces on the double layers. This ensures that you will have right and left pieces, as well as ears facing both directions.
